00225 67988610

I'm Ivorian and I live in Abidjan in the municipality of Abobo.

Link to my website: https://misterprog-dev.github.io/my-resume-cv

~~~~~~~~~~ PERSONAL STATEMENT ~~~~~~~~~~

I'm software developer since 2015 and I'm very interested in the Back-end development of PHP-Symfony, Django API Rest and Spring Boot and Angular Front-end.

I understand the life cycle of a web project. I am currently looking for long-term contractual positions that allow me to further improve my software development skills.

CORE SKILLS

- Programming languages including: PHP, JS, Java and Python
- Frameworks including: Symfony, Django, Spring boot and Angular JS
- Databases including: Mysql, MongoDB and Oracle
- Working environments: Docker, OS Ubuntu, OS Windows, VM Ware and Git

~~~~~~~~~~ EXPERIENCES ~~~~~~~~~~

DEVELOPER

Developer since 2015, I have produced a number of software for academic and personal purposes. I got acquainted with the different languages through mini projects. I have carried out scientific projects on an academic and personal level. You will find on my github account the different projects that I have carried out.

SYMFONY 4 DEVELOPER

Cocody Riviéra Bonoumin Lot 302 Ilot 23, I 80 | Abidjan | https://www.veone.net

December 23, 2019 > March 22, 2020

As an intern, I worked on a test project microservices with the Openstack cloud tools. I worked on the ObjectStore module which consisted of managing the various resources that will be hosted on the cloud. To perform the various operations, I used the Php-Opencloud SDK.

DJANGO DEVELOPER

Abidjan, Treichville, Km4 Bd de Marseille | https://www.esatic.ci

December 05, 2019 > March 06, 2020

Implementation of an optimization platform for the last kilometer of deliveries from the NPSP-CI (New Public Health Pharmacy in Côte d'Ivoire). In this project, we manage and optimize the routes proposed during the planning of drug distribution carried out by the NPSP-CI in Ivory Coast. This project was developed by me as well as two other collaborators who are Kéré Mohamed Bashir and Soro Oumar. This application is a first version with django. In the future, we will orient our architecture towards microservices as well as RestFul.

~~~~~~~~~~EDUCATION & QUALIFICATIONS~~~~~~~~~~

University degree of Computer Science - University Félix Houphouët B. – 2016/2017

Master in database and software engineering - University Félix Houphouët B. – 2017/2018

Master in Information System and Software Engineering – ESATIC (In progress) – 2019/2020

Training for project leader (MPE), organized by IECD (France) – April to August 2017

Seminar "A young person, an idea, a job ", organized by JCI – 08 June 2019

~~~~~~~~~~ CERTIFCATIONS ~~~~~~~~~~

Certification Microsoft technology Associate (**MTA**), link to check: verify.certiport.com

- Software Development Fundamentals (code: wLBoQ- FMEe)
- Database Administration Fundamentals (code : 84nR-uGsJ)
- Introduction to programming using Python (code : wA5m5-2FwT)
- Introduction to programming using Java (code : 5V3M-4TWx)
- Introduction to programming using HTML/CSS (code : uXXH-XMhk)

~~~~~~~~~~ PROFESSIONAL DEVELOPMENT ~~~~~~~~~~

- Agile Scrum development
- Complete regular coding lessons on platforms like Udemy

~~~~~~~~~~ ADDITIONAL SKILLS~~~~~~~~~~

- Familiar with Agile and Scrum working methods
- Confident building and optimising development processes
- Experience with unit testing

~~~~~~~~~~ PERSONAL INTERESTS ~~~~~~~~~~

- Football
- Cinema
